PROVISIONAL RESOLUTION BY THE SELECTION COMMITTEE FOLLOWING A CALL BY THE CENTRE D'ESTUDIS DEMOGRÀFICS (CED) FOR APPLICANTS TO FILL ONE POSTDOCTORAL RESEARCH POSITION (R2) UNDER A FULL-TIME EMPLOYMENT CONTRACT

Projects: *Intergenerational Coresidence in Global Perspective: Dimensions of Change-CORESIDENCE (ERC-2021-ADG No 101052787)* and *Temps per a la vida: indicadors, polítiques i impacte social dels usos del temps en la consecució dels ODS a Catalunya (2002–2024) (2025 IMPAC 00066)*

Reference: R204/2026

In accordance with the resolution of the Director of the Centre for Demographic Studies of 22 October 2026, opening the selection process to fill a postdoctoral researcher post, level R2, under a full-time contract with the *CORESIDENCE and Temps per a la vida* projects funded by the ERC and the AGAUR funders.

Whereas, in accordance with the CED's OTM-R recruitment protocols for research staff and the procedure applicable to posts for periods exceeding one year, the Selection Committee is responsible for assessing the applications submitted in accordance with the criteria set out in the job advertisement.

Whereas the call provides for the award of one postdoctoral research full-time contract for scientific and technical activities linked to the funding awarded to the *CORESIDENCE* and *Temps per a la vida* projects.

Whereas five applications were submitted within the established deadline and have been evaluated by the Selection Committee in accordance with the criteria set out in Annex 2 of this resolution.

Whereas the Selection Committee considers that the application identified by the last four digits of the telephone number provided is the one that best protects the confidentiality of the applications.

Considering that the Selection Committee does not propose any reserve candidate and that, if the selected candidate does not accept the contract or if it is not possible to formalise it, the post will remain vacant.

The Selection Committee, in ordinary session,

RESOLVES:

One. To approve the following list of applications submitted to the call and assessed by the Selection Committee:

Telephone, last 4 digits
2384
0345

3057
4181
7643

Two. To approve the provisional award of the full-time employment contract for the postdoctoral research position, level R2, under the projects *CORESIDENCE* and *Temps per a la vida*, to the candidate identified by the following last four digits of their telephone number:

Telephone, last 4 digits
2384

Three. Not to approve any reserve list for this call, since the Selection Committee does not propose any other application for the possible replacement of the selected candidate.

Four. To establish that, should the selected candidate fail to accept the contract within the period indicated, withdraw from the appointment, or should it not be possible to formalise the contract for any reason, the position shall remain unfilled.

Five. To publish this provisional resolution on the website and on the notice board of the Centre d'Estudis Demogràfics, where it shall remain on display for a period of ten working days from the date of signature. This resolution shall also be communicated to the persons concerned by email.

ANNEX 1. LIST OF THE MEMBERS OF THE SELECTION COMMITTEE

PhD Joan García Román – PI of the *Temps per a la vida: indicadors, polítiques i impacte social dels usos del temps en la consecució dels ODS a Catalunya (2002–2024) (2025 IMPAC 00066).*

PhD Rita Trias Prats –Researcher, Centre d'Estudis Demogràfics.

PhD Teresa Antònia Cusidó – Research Project Management, Centre d'Estudis Demogràfics.

ANNEX 2. CRITERIA APPLIED

The Selection Committee assessed the five applications received in accordance with the requirements and selection criteria established in the call for applications (reference R204/2026), taking into account the qualifications, research experience, technical skills and overall suitability of each candidate for the postdoctoral research position associated with the CORESIDENCE and *Temps per a la vida* projects.

The assessment was based on the documentation submitted by the applicants, including their curriculum vitae, cover letter and examples of scientific work.

The following five criteria were applied:

1. **Overall suitability for the position:** Assessment of the extent to which the candidate's academic and professional profile, qualifications and research background matched the responsibilities and requirements of the postdoctoral position and the research objectives of both projects.

2. **Research experience:** Demonstrated experience in demographic analysis, particularly in the study of family dynamics and time use, as well as experience in conducting cross-national comparative research.

3. **Experience with data sources:** Demonstrated experience in working with large-scale census and survey datasets, with particular emphasis on time-use surveys and the analysis of quantitative microdata.

4. **Statistical software proficiency:** Demonstrated proficiency in statistical software, such as R, Stata or equivalent tools, relevant to quantitative demographic and social research.

5. **Communication and writing skills:** Proficiency in written and spoken English and Catalan, including the ability to communicate research findings effectively and produce scientific written outputs.

Scoring procedure

Each of the three members of the Selection Committee assessed the five applications individually, awarding a score ranging from **1 to 5 points for each of the five criteria**, with all criteria carrying equal weight.

The maximum score that could be awarded by each committee member was therefore **25 points per candidate**, corresponding to a maximum combined score of **75 points per candidate** across the three committee members.

The individual assessments provided the basis for the Committee's comparative evaluation of the applications and its decision regarding the candidate best suited to the position, taking into account the specific research requirements of both projects.
